Summary

Python Full Stack Developer with hands-on experience in building web applications using **Python, Django, Django REST Framework, React.js, JavaScript, and MySQL**. Proficient in developing **RESTful APIs**, implementing **CRUD Operations**, designing database solutions, and creating responsive user interfaces. Applied technical skills through projects such as **Hospital Management System** and **Task Management Application**. Eager to begin a professional career in **Software Development** and contribute to innovative solutions.

Education

Jawaharlal Nehru Technological University Anantapur College of Engineering, Pulivendula 07/2023 – Present
Pulivendula, India
B.TECH- **Computer Science and Engineering**.

Narayana Junior College, Intermediate - MPC 06/2021 – 04/2023
Tirupathi, India

Skills

- HTML / CSS
- JavaScript (ES6+)
- React.js
- Python
- Django
- VS Code
- Postman for API testing
- Version Control : Git and GitHub
- Databases & Tools : MySQL, SQL, Workbench

Projects

Task Management Application | Self-Project, Full Stack Developer

- **Technologies: Python, Django REST Framework, React.js, MySQL**
- Developed a **full-stack task management application** using **React.js, Django REST Framework**, and **MySQL**.
- Implemented **CRUD operations** for creating, updating, deleting, and tracking tasks.
- Built **RESTful APIs** for seamless **frontend-backend communication**.
- Added **workspaces, task prioritization**, and **status tracking** features for better task organization.
- Designed **responsive user interfaces** using React's **component-based architecture**.
- Managed **MySQL database schemas** for efficient data storage and retrieval.
- Implemented **user authentication and authorization** for secure access to application features.
- Integrated **frontend components** with **backend APIs** to ensure smooth data flow and user interaction.

Hospital Management System | Self-Project, Full Stack Developer

- **Technologies: Python, Django REST Framework, React.js, MySQL**
- Developed a **full-stack healthcare management system** using **React.js, Django REST Framework**, and **MySQL**.
- Implemented modules for **patient records, doctor management, appointment scheduling**, and **medical history tracking**.
- Designed and developed **RESTful APIs** to manage healthcare data securely and efficiently.
- Built **role-based authentication and authorization** for **Admin, Doctors**, and **Patients**.

- Created optimized **database schemas** and relationships to maintain **data integrity** and scalability.
- Developed a **responsive user interface** for seamless navigation and improved user experience.
- Integrated **frontend components** with backend services for efficient data management and processing.
- Strengthened skills in **full-stack development, API integration, database management, and user access control.**

Certificates

Python Programming (SOC-2) | CodeTantra | Dec 2023 – Apr 2024

- Gained proficiency in **Python Fundamentals, Problem-Solving, and Efficient Coding Practices.**

Enhancing Soft Skills and Personality, NPTEL, IIT Kanpur |Feb 2023 – Apr 2023

Developed **Communication Skills, Interpersonal Skills, Professional Behavior, and Workplace Collaboration** through an 8-week certified program.

Python Full Stack Development, NxtWave,Hyderabad

Completed professional training in full-stack web development using **Python, Django, React.js, REST APIs, and MySQL.**Gained hands-on experience in developing web applications and working on real-time projects.

Declaration

I hereby declare that all the details furnished above are true and accurate to the best of my knowledge.
